

The logo features a stylized white wing with a red tip, positioned above the brand name "BRISTELL" in a white, italicized, sans-serif font.

BRISTELL

UL CERTIFIED

# Bristell Classic 916iS

Perfect choice for glider towing at your club

# BRISTELL CLASSIC 916iS

The ultimate evolution of our bestseller combines proven design excellence with cutting-edge power. Perfect for flight schools, glider towing, and recreational flying, the Bristell Classic 916iS delivers outstanding performance and unmatched versatility in its class.

With the powerful ROTAX 916iS engine, exceptional handling characteristics, and the most spacious cockpit in its category, this aircraft excels in crosscountry flights and challenging weather conditions. The heavy-duty wing spars, advanced avionics, and superior ergonomics make every flight a safe and enjoyable experience, whether you're training, towing, or exploring new horizons.

Factory-certified towing equipment for professional glider operations.

## German Ultralight Certification

Meeting strict safety and quality standards for maximum reliability.

## Towing capacity: 850 kg MTOW

Proven performance with heaviest gliders including TwinShark.

## Cost-effective

2000-hour TBO and optimal fuel efficiency reduce operating costs.

## Engine

ROTAX 916iS

## Power

160 hp

## TBO

2000 hours

## Max. horizontal speed in 10 000 ft

272 km/h (147 knots)

## Rate of climb at MCP

7,5 m/s (1500 fpm)

## Range at 75 %

1040 km (562 NM)

## Fuel consumption at 75%

26 lph (6,9 gph)

## Max. operating altitude

5500 m (18000 ft)

## Max. takeoff weight

600 kg (1322 lbs)

## Useful load

Up to 230 kg (507 lbs)

## Maximum take offs of glider

850 kg (1874 lbs)
